Did you know that there is more to notarizing than just filling in the blanks?

A notary is an impartial witness to the identity, signature *and statement* of the person appearing before the notary.

This is why A.N.S. teaches Washington State notary law.

Every notarial act has specific actions which must be followed. Our notary seminars cover the standards for carrying out all notarial acts in Washington.

Notaries are subject to criminal, civil and administrative penalties and your state required notary bond only protects the public you serve. Your only protection is proper training and insurance.

Our seminar is a four hour session concentrating on Washington notary laws and standards. It is taught by practicing Washington Notaries.

President, Judith Welsh, began offering notary seminars to educate Notaries on how to fulfill their notarial duties within the scope of the law after working with the Law Revision Committee in 1985. For over 25 years she has offered year round, statewide notary seminars as well as private group sessions.

Vice President, Rebecca Jacob, joined Ms. Welsh in teaching notary seminars in 1993. Ms. Jacob has used her nearly 30 years of notarial experience to educate notaries on the standards practiced today and has co-written our updated notarial training manual.
